

Trade Painters

Thanks for keeping it clean & out of the stream

Thank you!

For all your hard work so far, please keep it up. You should now be using an approved system to manage your paint wash water.

Approved systems are:

- 1 Contained wash system
- 2 Trade waste licence
- 3 Brush and roller cleaning service
- 4 Wash water drop off contract

Talk to your paint supplier for the best system to manage your wash water and to help protect the environment.

What's next?

Let your PMO know which system you are using and add details of your system to your SSSP.

Help protect our waterways

If you see someone not using one of the approved systems call the **Pollution Hotline on 0800 765 588.**

Anyone caught risks a \$750.00 fine or prosecution.

We're counting on you to keep Christchurch green and the rivers clean

Talk to your painter supplier for more detail and for a copy of the brochure for more information
